Subject: Mirant power plant hearing on 19 Nov. 2007

Dear Sir:

I had hoped to attend this evening's hearing but must work from 7-9 p.m. I will not burden you with technical points as there are many folks more expert than I in these important matters.

Allow me please simply to register my objection to continuing operation of this plant. There have been too many obfuscations (literally and figuratively) over too many years; too much "smoke and mirrors" (pardon another pun).

Most reasonable people do realize that we need to curb power consumption of all sorts unless and until we can come up with a "Manhattan Project" to generate power in a cleaner way. I for one do try to minimize consumption, and hope that happens on a wide-spread scale before our people are forced to do the same by sheer economic and health problems.

Trusting in good faith efforts by all concerned, I am Victoria Kennedy, retired public safety dispatcher

3321 St. James Pl.

Falls Church, VA 22042
